

William Stoehr

My work is regularly shown at universities, art centers, museums and galleries. A frequent speaker and lecturer at international, national and local venues, I recently spoke at the American Visionary Art Museum for the Johns Hopkins University Brain Science Institute's program *The Science of the Arts*. Following this, I co-created four evening programs in collaboration with the University of Colorado Department of Psychology and Neuroscience and the Boulder Museum of Contemporary Art called *Your Brain on Art*.
